When within about two miles of this place, and immediately after crossing a stream where the drivers have been in commission of the crime, the had not drawn a sothe habit of stopping to water their horses, the first Coach made a halt in the middle of the road, and the driver descended with his bucket and Temperance League, and which will be furnished went back a few rods to the brook after waterleaving no one on the box or in charge of the stream, the rear Coach came up to it, and thereupon the horses of the front Caach started off without their driver, and in less than four rods the sengers inside, and no means of escape except jumping thro the door of the coach while at full

Five of the six passengers deemed their greatest safety to consist in making the leap, notsithstanding the fearful speed of the coach, and the impossibility of jumping forward, or with the coach, by reason of the coach door opening and winging forward, and the difficulty and danger thereof still farther increased by the high wind of the day not lessened by the velocity with which strain every nerve to bring up our children, so as we were going. Chicago, Jan. 11. The gravel train of the Illinois Central Rail Road backing on to a switch 5 miles from lown this evening, was run into by the, freight train of the Michigan Central Ruil Road. The engineer of the gravel train jumping off, the engine started for Chicago, becoming unhitched from the tender it came in zt the rate of a mile a minute, running Thos. H. Horace Gleeley on Milwaukez.—The Trit me of the 6th, contains's letter from Mr. Greey, commenting on and describing the various places he visited in his late journey West. After treating of Chicago, he refers to Milwaukee, 18

Mitwaukee does not grow so rapidly as Chicago, having as yet, but one Railroad, (reaching to Janes-tille.) but she means to have more soon.—Had her delegation contrived to bore out of Congress anything like the lilinois Central grab, she would have grown faster; as it is, I judge that her population is less than half that of her introclate rival. But railroads she will have very soon, whether Wisconsin makes a great haul or only two or three lesser ones; and she has a glorious country behind her to furnish sustenance and stimulate her growth. Wisconsin harvested a generous wheat-crop in 1853, and has sold it at a good price, so that she was never more thrifty and prosperious. If the people would stop speculating in lands, pass the Maine Law and enforce it, stop using tobacco and other hurtful superflurities, and all work as steadily as the great majority appear to de, they might build five hundred miles of It ilroad each year, from their own resources, and never again think of borrowing in New York, or begging of Congress. But I am hinting a sort of good advice which is very often given and very rarely profited by.

I was glad to see so many smokes arising from manufacturing establishments into the clear sky of the cold morning (Thurshay) on which Hott Milwankee. Manitla Women.—In the evening, Spaniards, English, and French go to the promenades to ogle the beautiful and half-bred women, whose transparent robes reveal their figures. That which distinguishes the female half-breels (Spanish Tagais or Chinese Tagais) is a singularly intellight and expressive physicognomy. Their hair dawn tack from their face, and sustained by long golden pins, is of marvelous lumminnee. They wear upon the lead a handkerelief, transparent has a veil, made of the pine fibre, finer than our finest, cambrie; the neck is ornamented by a string of large coral bends, fistened by a gold medallion, A transparent chemistre, of the same stuff as the lead-dress descends as farns the waist, covering, but not concealing, a bosom that has never been imprisioned in stays. Below, and two or three inches from the cape of her chemisette, is attached a variously colored petticast of bright bases, closely encircles the figure, and shows its outline from the waist to the knee. The small and white feet, always maked, are thrust into embroidered slippers, which cover but the extremities.—Nothing can be more charming, and fascinating than this costume, which excites, in the highest degree, the admiration of strangers. On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the flat day of July. He is limited for the season at fifty-two marcs, two of them my own. It is claimed by those owning the Black Hawk Stock that stands so high in Vermont, that the original Black Hawk was sired by the Uid Sherman Morgan, the grand three of my horse. If so, the same cross blood can be raised in this State, and at a far less expense then to import them from Vermont; that was one reason for my bringing Comex Morgan West. His pedigree is fully authenticated.

HOLLOWAY'S PILLS. These Pills being composed entirely of medicinal herbs are of a most harmless stature, while the extraordinary virtues they possess have rendered them universally popular in nearly ev. ry part of the world. The immense success they have me with throughout the States is most extraordinary, owing, it is presumed, to their wonderful efficacy in the cure of Bilious complaints and disorders of the Liver and Stomach. Persons who preserve in maing them in accordance with the directions, selsom fall in being restored to health.

WEAKNESS AND DEBILITY.—RESTORATION TO HEALTH OF A GENTLEMAN. AGED 45, WHEN AT DEATHES DOOR. Copy of a Letter from the Rev. Charles Smith, dated Nor-ton. St. Philips, near Bath, Somerestwhire, Vith August, 1853. ion. St. Philips, mar Balk, Someretehrer, Tith August, 1853.
TO Faorresson Holloway,
Siry—A Mr. Journa Purron, formerly a resident of this place, had been in a decilating state of health for unwards of three years, gradually wasting away to a shadow by nightly perspirations and want of appetite, which caused great uncasiness to 18 friends, as he and convenied walvous modical men in Balb, without effect. He at less used your Fills, and under providence was restored to health by their means. He sately emigrated to New York, and has just written to say, that he was never better in health, and desired me to acquaint you with the circumstance. I ought also to mention, that my wife had derived great benefit from the use of your Fills.

Dear Str—In this district your Fills command a more
extensive sale than any other proprietary medicine before
the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention the following case. A lady of this town with whom I am personally nequainted,
for years was a severe sufferer from disease of the
Liver and signstive organs; her medical attendant assured
her that he could do nothing to relieve her sufferings, and
it was not likely she could survive many months. This aunoncement unturally caused great alarm among her
friends and relations, and they induced her to make a trial
of your Fills, which as improved her general health that
she was induced to continue them tastif is a received a perfect cure. This is twelve months ago, and she hay not experienced any symptoms of rolapse, and often declares that
your Fills have been the means of saving ber life.
